Monitor Adaptations
All mounting systems for Philips IntelliVue series are prepared to accept the Philips table top mount.
Mounting solutions for the Efficia series and Sure Signs / Vital Signs are shown in the catalogue “5” plunge plate adaptation”.

Please note!
The Philips table top mount must be ordered separately by Philips.

Components’ grounding
All arms with integrated cable management are equipped with component grounding. No grounding is required for arms with external or semi-integrated cable management with cables not being led through joints.

Load capacity
All height adjustable arms have a load capacity of 22 kg / 48.5 lbs. Rear mounted monitor adaptations and horizontally mounted 5” plunge plates accept a maximum monitor weight of 18 kg / 39.7 lbs. An additional 4 kg / 8.8 lbs may be mounted on a down post underneath the front swivel part. Depending on material and tensile factor all weight indications have a 4-fold and / or 6-fold safety factor according to EN 60601-1, 3rd Edition regulations.

Custom-designed solutions and MRI applications
Please contact us for custom-designed solutions.

Product marking
All CIM products are CE marked. As medical product risk class 1 and they conform with the regulations MDD 93/42 ECC and EN 60601-1, 3rd Edition. TUEV reports for numerous products especially for anaesthesia applications guarantee electrical and mechanical safety of our products and are available upon request.
How to create part numbers

Part numbers can be easily created by following the steps below:
Please replace the letters in green with the part no. code as per your requirements.

1. Components’ grounding:
   A = grounded

2. Choose the arm version required:
   224PH / 230PH = pivot arm
   33030PH = extended pivot arm light duty
   H33030PH = extended pivot arm heavy duty
   431PH = height adjustable arm
   73130PH = extended height adjustable arm
   531PH = high position height adjustable arm
   83130PH = extended high position height adjustable arm
   224FMS / 230FMS = pivot arm, FMS interface
   32424FMS / 33030FMS = extended pivot arm light duty, FMS interface
   224MP2 / 230MP2 = pivot arm, MP2/ X2/ X3 interface
   224MP2PS / 230MP2PS = pivot arm, MP2/ X2/ X3 interface with power supply enclosure
   33030MP2 = extended pivot arm light duty, MP2/ X2/ X3 interface
   33030MP2PS = extended pivot arm light duty, MP2/ X2/ X3 interface with power supply

3. Specify where you want to mount the arm and select the fixing (Y):
   1V = pole ø 23 - 40 mm / 0.9 - 1.6”
   1 = pole ø 25 mm / 1.0”
   1F = pole ø 35 mm / 1.4”
   1C = pole ø 38 mm / 1.5”
   2F = horizontal rails 10 x 25, 8 x 35, 10 x 30, 10 x 50 mm
   3 = vertical rail 10 x 25 mm
   3DR = dual vertical rails, distance 150 mm/ 5.9”
   3TX = dual vertical rails, distance 225 mm/ 8.9”
   4V = vertical wall channel
   4U = vertical wall channel for arms with high mounting position
   13 = Mindray medical supply units
   17 = Amico pendants & headwalls
   9 = Löwenstein Medical anaesthesiology machine
   4K = anaesthesiology machine with existing channel
How to create part numbers

4. Choose the colour requested for decorative parts (C):
   gr = RAL 7024 (graphite grey)
   bl = RAL 5013 (cobalt blue)

5. Choose the colour requested for the aluminium die-cast parts (D):
   1 = RAL 9016 (traffic white)
   2 = RAL 9002 (grey white)

6. Specify the spring depending on the weight of your monitor/device - only with height adjustable arms (X):
   60 = 2 - 5 kg / 4.4 - 11 lbs
   95 = 4 - 9 kg / 8.8 - 19.8 lbs
   130 = 7.5 - 13 kg / 16.5 - 28.7 lbs
   175 = 13 - 16 kg / 28.7 - 35.3 lbs
   220 = 16 - 22 kg / 35.3 - 48.5 lbs

Product highlights

Non-height adjustable arm
Pivot and extended pivot arms offer full cable integration and easy cleaning for infection control in all critical care areas in the clinical environment. Our 5-years warranty guarantees reliable, trouble-free and maintenance-free operation. The swivel function at the fixing point as well as the tilt/swivel function of the monitor adaptation offers optimum positioning of your device. The extended pivot arm is a two-part arm with central pivot point between the two arm sections. All bottom-mounted monitors have the safety feature of a 20° tilt stop.

Height adjustable arm
The height adjustable arm offers full cable integration, one-wipe clean surfaces and our 5-year warranty on the entirety of the product. Vertically and horizontally adjustable, the arm offers optimal positioning of your device. A constant viewing angle when vertically adjusted is guaranteed by a parallel linkage. Weight-optimized springs counter-balance the monitor without making any adjustments. All bottom-mounted monitors have the safety feature of a 20° tilt stop. Individual rotational stops may be integrated in any joint.

To provide the perfect combination of arm and monitor, the CIM articulated height adjustable arm has a simple quarter-turn lock to hold the arm safely in position when removing the monitor. Furthermore the arm is equipped with the unique safety feature of a slow-release gas spring. Should anybody try to remove the monitor before locking the arm in position, the arm will only rise at a slow and even tempo.

Extended pivot arm light duty for MP2 / X2 / X3

Monitor adaption: adapter for MP2 / X2 / X3

Colours to choose:
- Decorative parts: RAL 5013 cobalt blue / RAL 7024 graphite grey
- Aluminum parts: RAL 9016 traffic white / RAL 9002 grey white

Max. load capacity support arm: 8 kg / 17.6 lbs
Max. load monitor adaptation: 8 kg / 17.6 lbs
Product weight: 3.3 kg / 7.3 lbs

Part number:
- A-33030MP2-Y.CD: without power supply (illustration)
- A-33030MP2PS-Y.CD: with power supply

Fixings:

4V
Adapter for vertical wall channel

2F
Fixed rail clamp

3
Vertical rail clamp

3DR 3TX
Dual vertical rail clamp

1F 1C 1V
Fixed / universal pole clamp

13
Adapter for Mindray medical supply units

17
Adapter for Amico pendants & headwalls

9
Adapter for Löwenstein Medical anaesthesia machines

4K
Adapter for anaesthesia machines with existing side channel
Extended pivot arm light duty for MP2 / X2 / X3
